## PROJECTS

### Crown-clothing

- Created a fully functional ecommerce web application using ReactJS and Sass, incorporating secure payment processing with Stripe integration.

### Social Media App

- Built a sleek and intuitive social media app with post functionality, seamlessly integrating data from an API source.

### Admin Dashboard

- Engineered a professional custom dashboard using React.js and Sass, ensuring a smooth and streamlined user experience.

### Online FIR System for DPO Mansehra (FYP)

- Created a fully functional and centralized online FIR system for the police department of Mansehra. The system allows for the creation of FIRs by any police station, with the DPO serving as the admin to review and update these FIRs.
- Front end was developed using JavaScript, React, and Bootstrap for styling, while the backend is powered by PHP.
